

Achieve Operational Excellence!

Research confirms Operational Excellence as a key attribute of leading companies in any industry. Equipped with an excellent operating model, having the right technology strategy driving towards digital transformation and following the right execution path, companies will gain competitive advantage regardless of economic environment.

We are an organization passionate about Operational Excellence and the power of incremental changes. This is what we do by providing people with such expertise through personal interaction in projects, workshops, trainings, seminars and social media.

Our products & services include:

Past, present, future

Hi Everyone!

This first News is an update what has happened & what the near future entails for CiCONS. We hope you are interested and want to continue to get news from us. If so, please respond and say "Yes" to continue to receive this from us.

This is what we have been delivering during the first 8 months of service:

- Lean Six Sigma Green Belt training for a world leading HR-solution company.
- Lean foundation training for a construction industry company.
- Large scale turn-around project & change management for a mega brand.
- Change management advice to one of the most renowned global humanitarian aid organizations.

CiCONS partnerships

During the past 8 months we have established close cooperation with the following very professional partners:

Operational Excellence Strategy
