

Achieve Operational Excellence!

We know you are keen to improve your company's performance, to increase customer satisfaction and profits. We have an approach to help ensure this happens. Research confirms customer centric Operational Excellence as a key attribute of leading companies in any industry. Equipped with an excellent operating model, having the right technology strategy driving towards digital transformation and following the right continuous improvement execution path, companies will gain competitive advantage regardless of economic environment.

Development

Accelerate the Continuous Improvement Culture

The training aiming at accelerating the journey to become a continuous improvement culture company based on Behavioural Psychology and Lean is now developed. Psykologpartners and CiCONS will jointly deliver the first session in June 2021. "This I believe is a great first step of a very long, successful journey together with CiCONS", says Magnus Stalby, Business Area Manager for Organisation & Leadership at Psykologpartners.

Training activities

We continuously work on our own competency development through practical application, concept development, providing trainings as well as participating in trainings: This we do to constantly grow our capabilities in order to be able to continuously provide valuable, good support to our customers.

- Scrum Master certification by SCRUMstudy
- Efficient Remote Meetings and Collaboration training by CRISP helping to become awesome remote facilitators covering: Open & Launch. Visualizations and Formats, Energizers, Facilitator skills, Decision-Making, Preparations and Closing.

Please contact us if you are interested to learn more on what is ongoing or what we can do for you.
