

### Achieve Operational Excellence!

We know you are keen to improve your company's performance, to increase customer satisfaction and profits. We have an approach to help ensure this happens. Research confirms customer centric Operational Excellence as a key attribute of leading companies in any industry. Equipped with an excellent operating model, having the right technology strategy driving towards digital transformation and following the right continuous improvement execution path, companies will gain competitive advantage regardless of economic environment.

We are an organization passionate about Operational Excellence and the power of Continuous Improvement. This is what we do by providing people with such expertise through personal interaction in programs, projects, workshops, trainings, seminars and social media.

Our products & services include:

### Cooperation & development

#### Continuous Development

At Lean Forum, Scandinavia's biggest event for Lean Thinkers, in October CiCONS expanded the network and got insights on current trends how to accelerate the Lean journey, concepts for Lean & Green as well as Agile/Lean R&D from organisations like Astra-Zeneca, Intermountain Care, Scania, Tikkurila, KTH, Systembolaget, Volvo Cars, Getinge and SKF.

#### New Consultant in network – Peter Béen

Peter is a business-driven Management and Digitalization consultant powered by Lean Six Sigma. He has been responsible for Lean Six Sigma at Fujitsu Scandinavia including implementation towards customers within Automotive, Telecom, IT, Public, Finance, Health Care & Retail. Furthermore, Peter was earlier the IT company Sigma's Head of Total Quality Management. He is also founder of three successful start up's within EdTech and FinTech using "Lean Start Up".

#### Partner Networking

CiCONS held the annual partnership conference in July Särö, Sweden with partners from IKMW, CiCONS, McKnight Gracie and SigmaLean discussing and practicing lean, six sigma, stakeholder management, motivation and competitiveness.

In September CiCONS attended IKMW's development conference in Bocholt, Belgium on building relations, teams and cooperation in a Lean Six Sigma environment with 25+ delegates from various partners in the network.

Please contact us if you are interested to learn more on what is on-going or what we can do for you.
